

Acknowledgments

Although the authorship of this book is a “three headed beast” there are many people to whom we owe a debt of thanks. The book would be significantly poorer without images, information, and knowledge provided by the following individuals: Helmut Becker, Christophe Benech, Jarrod Burks, Joerg Fassbinder, Vince Gaffney, John Gater and colleagues from GSB Prospection, Colin Heathcote, Tomasz Herbich, Tim Horsley, Alette Kattenberg, Paul Linford and colleagues from English Heritage, David Maki, Volkmar Schultze, Lew Somers, and Roger Walker. There are probably others we should mention ... We are sorry for not giving you a name check, but do appreciate the help and advice you have given us.

The manuscript was finished when co-author Armin Schmidt was on research leave and during the last couple of months the three of us managed to be on different continents. Somehow, however, the final draft was written and the diagrams prepared to the satisfaction of us all. Sue Gaffney read some of the chapters, but the grammatical mistakes are of our making. Jack Meinhardt, Marissa Marro, and Krista Sprecher at Altamira were most helpful in guiding us towards the finished product. Finally, we would like to thank Larry Conyers for persuading us that writing this book would be a good thing to do. We leave it to you, the reader, to confirm that he was right.
